

PERSPECTIVES Family Covenant

*On December 12-14, 2003, about 50 leaders who have used the Perspectives course or courses derived from Perspectives expressed a desire to strengthen ongoing collaboration by drafting a Perspectives Family Covenant. The following items were voiced at that time.
You are welcome to join. Look for supporting documents at www.perspectivesfamily.org.*

In recognition of God's desire to engage all of His people in the completion of the missionary task with the hope of fulfilling all of His global purposes, we covenant to work together to mobilize the church for missions using education.

Specifically:

We will seek to convey frontier missiology as expressed in the *Perspectives* Core Ideas. We affirm the beliefs and hopes of the Lausanne Covenant.

We will seek to co-labor with others in the evangelical missions movement and especially with others in the *Perspectives* Family. We will seek to communicate with one another in ongoing ways. We will seek creative ways to share curricular resources, and insights into effective mobilization strategies.

We will seek to honor copyrights, trademarks and distribution rights of Perspectives authors, artists, publishers and ministries. We will use the names "*Perspectives*" and/or "*Perspectives Family*" according to established guidelines.
